- Event Center – start: max. 2 000 m
- Event Center – finish: 0 m

Provision

The competition follows the effective MTBO Rules, Competition Rules and MTBO Implementation Guidelines. A helmet is required!

Protest

In a written form to main referee with deposit 200 CZK. One hour after the scheduled time of closing the finish at the latest (it doesn't include the official results). The deposit will be given back in case of approval of the protest.

Technical check of bikes

The check will be provided to categories OPEN, WM12L, WM14 and WM17 before each competition. The width of tire has to be at minimum "1.5". All the competitors must wear the cycling helmet.

Notice

Friday night sprint will be placed out of road traffic and in difficult terrain so a suitable light is required. The controls are visible also in the night so they won't have any special reflection. We recommend the light of good quality on your helmet and handlebars. Also you can use some reflective ribbons or red light (but be careful – blinking rear (red) light is forbidden and it will be checked at the start. Do not look at the faces other competitors during your ride – you could dazzle them by light and they could fall down.

The competitors will overcome third class road during Saturday's race. That place will be under control of organizers, but the cars have priority on the road ahead of the competitors.

Some singletracks will be marked by yellow steamers in the terrain.

You will be also crossing the third class road on the way to start and also from finish,

Please follow the rules and be extremely careful!

Dangerous downhill won't be marked (neither map or terrain)!

The referees will be in the forest guarding the rules, especially riding off-roads.

Any violations of MTBO rules will be punished by disqualification.

Event Functionaries

Honza Svoboda - event director

Věrka Pařízková - main referee

Honza Svoboda (sprint + middle), Michal Hons (long) - course setters
